Mobile Typography

On mobile, the text fluidly scales using this formula:

font-size: calc([minimum size] + ([maximum size] - [minimum size]) * ((100vw - [minimum viewport width]) / ([maximum viewport width] - [minimum viewport width])));

For instance:

```
@media screen and (min-width: 320px) {
  html, .root {
    font-size: calc(14px + (28 - 14) * ((100vw - 320px) / (1600 - 320)));
  }
}
```

Minimum paragraph width: 40 characters per line

Maximum paragraph width: 90 characters per line

On Focus

A drop down list allows the user to make a selection. Consider using radio buttons if the selections are less than four items.

Checkboxes / Multi-select

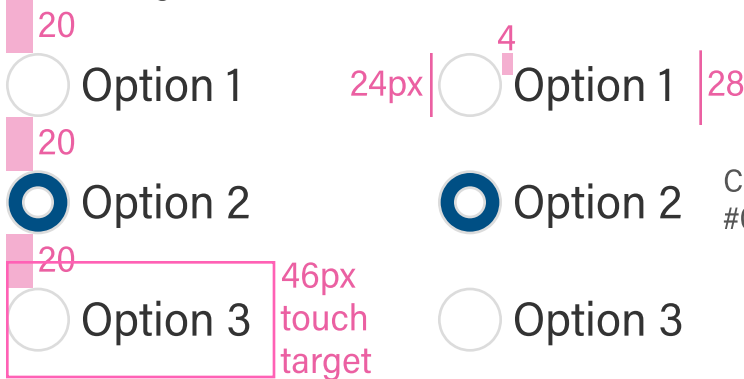

Checkbox background color: #FFFFFF

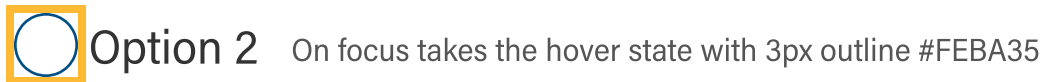

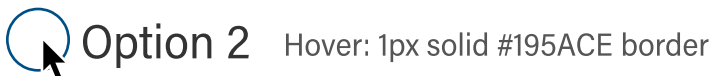

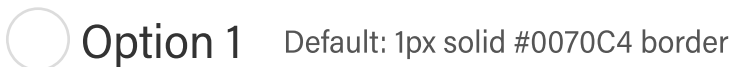

Use checkboxes in forms when more than one selection can be made. If only one selection must be made, use radio buttons instead.

Radio Buttons / Single-select

Radio background color: #FFFFFFF

Checkbox background:
#0524A8

Use radio buttons in forms when only one selection can be made. If more than one selection can be made, use checkboxes instead. Consider using a dropdown list if there are more than three items.
